

Product Number 0378

PAZREX EHD 90

Automotive gear lubricant

Product description

Pazrex EHD 90 is a mineral based extreme pressure (EP) gear oil designed for use in manual transmissions, differentials and final drives where the manufacturer recommends the use of an oil that meets API GL-5 and/or MB 235.0 performance level.

This product is formulated from high quality mineral base stocks and contains a selection of additives which impart extreme pressure, anti-corrosion, anti-oxidant and anti-foam properties which are necessary for the protection of gears operating under stringent conditions.

Applications

Recommended for use in the final drives for most vehicles and in some manual transmissions where API GL5 lubricants are required. It is not suitable for limited slip applications.

Specifications/Performance

▶ Standard	▶ Specification
API	GL-5
MB	235.0

Typical Characteristics

▶ Test	▶ Typical
SAE	90
Kinematic viscosity @ 100°C, cSt.	17-21
Specific gravity, kg/lit. @15°C	0.90
Flash point °C	168
Pour point °C MAX	18-

Features/Benefits

- ▶ Superior anti wear and extreme pressure performance.
- ▶ Good thermal stability and resistance to oxidation.
- ▶ Good corrosion and rust protection.

Storage

- ▶ All packages should be kept tightly closed and stored under cover in order to prevent any kind of contamination. (by water etc.)

Health, safety and environment

- ▶ Product is not designated as hazardous.
- ▶ When used properly product does not represent any risk to health.
- ▶ It is most recommended to keep personal hygiene when using the product.
- ▶ Avoid any contact between product and heat source or fire.
- ▶ For further information refer to Safety Material Data Sheet.

Note

Paz Lubricants & Chemicals makes its utmost in order to secure accuracy and validity of the above information, nevertheless it is the users obligation to evaluate and use the products safely and within the scope advised in the Product Data Sheet and MSDS, and to comply with all applicable laws and regulations.
